# ROJEK WOODWORKING MACHINES

EURO 9

Rojek is a long-established European manufacturer who have been producing a range of classic woodworking machinery for over 100 years.

We offer the Euro 9 and Industry ranges both offering excellent build quality and dependability. Many of the ranges have options available enabling you to specify the perfect machine for your workshop.

## Rojek PK 315A 1200mm Panel Saw

Code: 109549

- Well-designed compact panel saw with cast iron table
- High-quality European made machine, built to last
- Available in 1ph or 3ph and with many additional options
- Can be suited to smaller scale workshops as well as education
- Fitted with a very precise cutting table

Equipped with a sliding table with a very precise and solid mounting on steel round bars, the saw unit is mounted in a robust cast iron body guaranteeing accuracy, solidity, and reliability.

## Rojek PK 320A 3200mm Panel Saw

Code: 108899

- Aluminium sliding table 360 x 3200 mm on steel round bars
- Table extension
- Tilting fence with protractor  $\pm 45^\circ$
- Saw blade safety guard
- Scoring unit with separate motor
- CE standards

These combined planer thicknessers have comfortable workpiece guidance on solid cast iron tables ensuring high rigidity and precision.

## Rojek MSP 315 Planer Thicknesser

Code: 109072

- Table size – Planer 1500 x 320mm
- Table size – Thicknesser 750 x 308mm
- Equipped with a four-knife cutterblock system
- Choice of cutter blocks, HSS, Torsa or Spiral
- Large hinges with torsion springs, make it easy to handle the cast iron tables when changing functions.

## Rojek MSP 415 Planer Thicknesser

Code: 108888

- Table size – Planer 1870 x 420mm
- Table size – Thicknesser 750 x 408mm
- Large 410mm planing width and a 400 x 230mm thicknessing capacity

**FREE TECHNICAL CONSULTATION**

We offer a free visit from one of our Technical Consultants to discuss your needs, including installation, extraction solutions, and certified training. Get in contact at [education@axminstertools.com](mailto:education@axminstertools.com)

Quality manufacturing ranks this spindle moulder among the best in its class. It is especially popular among smaller and middle-sized producers.

### Rojek FSN 300A Spindle Moulder 1200mm

Code: 108875

- A high quality machine made in Europe, built to last
- Available 1ph or 3ph and additional options
- Tilting spindle  $-5^{\circ}+45^{\circ}$  with 4 spindle speeds

In the education sector, you need a heavy duty machine that can operate at a high rate of speed with an electric motor, to smooth a range of materials.

### Rojek CB 600/1 Disc Sander

Code: 108862

- 1ph or 3ph motor with additional options available
- Fine angle adjustment for finishing precise angles
- With 600mm disc with tilting cast iron table

## 100 YEARS

Founded in 1921. **ROJEK** has a century-old engineering production tradition. It is located in Kostelec nad Orlicí in the Hradec Králové region of the Czech Republic.

Today **ROJEK** is a major global manufacturer in its field, with sales offices on four continents.

# ROJEK MACHINES

## INDUSTRY 9

Explore Rojek's range of larger industry machines here.

The **Industry 9** range is designed for serial production, such as in production workshops. Attention to detail and manufacturing of the highest quality ensures these machines are ranked among the best in their class.

# FINISHING SYSTEMS

RJH is a British company known throughout the industry for the robustness, quality, safety and performance of its products.

## Antelope Bandfacer Dust Extraction Mounted

1ph Code: 106833  
3ph Code: 106834

- Mounted on floor stand with built-in dust extraction unit
- Dust tray collector for easier and cleaner waste handling
- Filter service indicator light
- Full guarding incl adjustable front belt guard
- Knee operated stop bar
- Quick action calibrated tilting work table
- Mitre guide included
- Supplied with 150 x 1090mm aluminium oxide abrasive belt

## Deer Bandfacer Pedestal Mounted

1ph Code: 106835  
3ph Code: 106836

- Mounted on substantial pedestal stand
- Full guarding including adjustable front belt guard
- Foot operated emergency stop button
- Quick action calibrated tilting work table
- Mitre guide included
- Supplied with 150 x 1090mm aluminium oxide abrasive belt

## Chamois Polisher Extraction Mounted

1ph Code: 106837  
3ph Code: 106838

- Taper adaptors for easy changing of polishing mops
- Suitable for mops, finishing wheels or wire brushes
- Heavy duty adjustable polycarbonate eye shields
- Large adjustable mop guards with safe edging
- Dust extractor features high quality polyester needle-felt filter
- Full width knee operated emergency stop bar
- Supplied with two 200 x 25mm mops; loose leaf and stitched

## RJH Gerbil 2010 Trimmer

Code: 107910

- Safe trimming of vacuum formings
- Tool height adjustment facility (max height 40mm)
- Generous 400 x 455mm MDF worktop

## RJH Gerbil 2020 Trimmer

Code: 107911

- Simple and safe way of trimming vacuum formed parts
- Features a metal tilting worktop adjustable from 0° to 10°
- Includes adjustable guide fence and a dust extraction fence

RJH has manufactured grinding, polishing, and finishing machines for over 80 years.

## Hermes Abrasive Belt 150 X 1,090mm

60g Code: 110215  
80g Code: 110216  
100g Code: 110217

- Polyester/cotton cloth backed aluminium oxide abrasive
- High stock removal rates in the coarse grit range
- Consistent surface quality in the fine grit range
- Universal use for dry and wet grinding

## Abrasive Belt & Disc Cleaners

300 x 50 x 50mm Code: 310389  
210 x 40 x 40mm Code: 310398

- Increase the usable life of abrasive belts and discs
- No-nonsense; quick and easy to use
- Available in two sizes

# VACUUM FORMING

**Formech**  
Perfectly formed

Established in 1982, Formech is a UK designer and manufacturer of vacuum forming machinery. Selected especially for the education sector, Formech provides compact desktop to fully automatic production machines.

## Formech Compac Mini

The Formech Compac Mini is the ideal entry level manual vacuum forming machine suitable for both educational and prototype production. Its compact nature and versatility make the Compac Mini a highly adaptable machine requiring minimal workspace.

Code: 200959

- Fast total change facility, accepts moulds from clay, wood, resin, aluminium
- Powerful infra-red ceramic heaters
- Two stage reciprocal diaphragm pump
- Heater movement track to prevent lifting & derailing of heater box
- Vacuum & release controls
- Interlocking table
- CE approved

## Mobile Stand for 300XQ

Code: 202140

- Adds mobility to Formech 300XQ Vacuum Former
- Ideal where workshop space is limited

## Formech 450DT Desktop Vacuum Forming Machine

The 450DT offers today's students, designers and inventors the latest user experience with industry standard, control technology.

Code: 105136

- Vacuum forming machine with convenient and precise control
- Generous forming area and draw depth
- Fast warm-up facility, ready to use in seconds
- Vacuum and release controls
- Interlock ensures mould cannot be raised with heater in forward position
- Powerful quartz heaters with standby feature
- Four independent zone controls
- Vacuum gauge

## 450DT Machine Trolley

Code: 105570

- Adds mobility to Formech 450DT Vacuum Former
- Ideal where workshop space is limited

## Formech 508FS Vacuum Forming Machine

Formech's 508FS machine offers significant advantages over the desktop series with pre-stretch, auto-level and a much more powerful flow rate for demanding applications.

Code: 106828

- Highly capable vacuum forming machine
- Fitted with the very latest technologies
- Large forming area 482 x 432mm
- Draw depth up to 290mm, max material thickness 6mm
- Intuitive 4" touch-screen with clear graphics
- Memory function with 20 programmable presets
- Oil free vacuum pump requires minimal maintenance

## Mobility With Castors for 508FS

Code: 106827

- Set of 4 castors to fit the stand of the Formech 508FS
- Enables you to move the machine around the workshop with ease
- Front castors with brakes, prevents machine moving during use

## 228 x 203mm Reducing Window for 508FS

Code: 106826

- Reduces the forming area when using small moulds
- Reduces waste
- Fitted in minutes
- Two part upper and lower halves

## Formech FLB500 Line Bender

Code: 106832

- Create sharp bends in plastic sheet easily and quickly
- Long bending length, up to 500mm long
- Maximum thickness 10mm
- Incoloy heating element for fast heating of material
- Fitted material clamp and temperature regulator
- Bending/cooling jig helps achieve required angle

## Formech FLB1000 Line Bender

Code: 106831

- Create sharp bends in plastic sheet easily and quickly
- Long bending length, up to 1000mm long
- Maximum thickness 10mm
- Quartz heating element is extremely robust
- Fitted with timer and material clamp
- Bending/cooling jig helps achieve required angle

# PROFESSIONAL BANDSAWS

AXMINSTER

PROfessional

The bandsaw is another Teacher & Technicians favourite machine, we have selected a range of our most suitable for education meeting the BS:4163 standards, with breaking, NVR switches etc.

Foot switch available

## Axminster Professional AP3327B Bandsaw - 230V

Code: 107660

With a powerful motor, large capacities and made to the exacting standards this bandsaw has become firmly established.

- Max depth of cut 300mm, max width of cut 410mm
- Braked induction motor and electrically interlocked doors for safety
- Rigid rip fence with magnified scale lens and accurate mitre fence

Foot switch available

## Axminster Professional AP1854BV Bandsaw - 230V

Code: 107652

This benchtop bandsaw offers great performance in a small space. This model is a true all round machine. An optional floor stand is available.

- Max depth of cut 160mm, max width of cut 250mm
- Inverter motor drive gives a wide blade speed, can cut metals with a suitable blade
- Multi V-belt drive with two ratios give high torque and long belt life

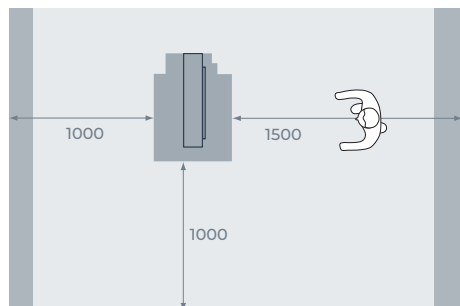

## Axminster Professional AP3086B Bandsaw - 230V

Manufactured in thick gauge welded steel and cast iron, you can be sure of its build quality and strength.

Code: 107661

- Max depth of cut 356mm, max width of cut 342mm
- Powerful, smooth running, electro-mechanically braked induction motor
- Heavy duty blade guide bearings

Bandsaw safe working zone

**BANDSAW BLADE FINDER**

Find by model or length.

## Axminster Professional 4 Sided Workbench

Code: 107998

The Axminster Professional workbench designed with the educational workshop in mind. The 1,200mm square top will allow up to four students to share a sensible sized workspace.

**3 YEAR GUARANTEE**

Available on all Axminster Professional machinery.

# PANEL SAWS

AXMINSTER

PROfessional

These saws come in a range of sizes for those with a larger workshop or a smaller technician's prep room. The Axminster saws meet BS:4163 standards, robust construction offering accurate cutting and an affordable price point.

## Axminster Professional AT254PS16 Panel Saw

Code: 107662

The Axminster AP254PS16 Panel Saw offers outstanding cutting quality, capacity and flexibility in everyday use. A robust chassis in heavy gauge steel and a generous grey cast iron table provide stability and vibration free running.

- Compact design, perfect where space is limited
- 1,600 x 316mm fully featured sliding table
- Rear outfeed and side extension tables included

## Axminster Professional AT305PS Panel Saw

Code: 107663

- Powerful, accurate, compact panel saw
- Extra large rigid cast iron table with ground surface
- 2,600 x 360mm fully featured sliding table
- Crosscut frame fully supported by a heavy duty telescopic arm
- 120mm scoring blade, fully adjustable for depth and position
- Rear outfeed and right hand support tables included

## Axminster Professional Overhead Crown Guard

Code: 211562

- Improved user protection as recommended by the HSE
- Superior dust collection, cleaner working environment
- Recommended for blades of 305 mm or above in diameter

## Axminster Professional AT355PS32 OHCG Panel Saw

Code: 107664

- Precision ground cast iron main table
- 3,200 x 360mm heavy duty sliding table with large panel support carriage
- Takes 305 or 355mm main saw blades
- Separately powered, fully adjustable 120mm scoring blade
- Outfeed and side extension tables standard
- Comprehensive overhead crown guard provides added safety and dust extraction

## Axminster Professional AP310SPT Planer Thicknesser Spiral Block 230V

Code: 107808

- Suitable for use in heavy daily usage in a professional workshop
- Spiral block produces an unrivalled clean finish
- Exceptionally accurate in both planing and thicknessing
- Length of Table 1,380 mm • Max Planing Width 310 mm

## Axminster Professional AP260SPT Planer Thicknesser Spiral Block-230V

Code: 107807

- Length of Table 1,100 mm • Max Planing Width 255mm

# PILLAR DRILLS

One of the cornerstones of any educational workshop, we have selected the most popular drills from our range, offering peace of mind as these meet BS:4163 standards (foot stop switches can be added to all. Please enquire).

These pillar drills have been developed and tested to ensure that they can withstand many years of hard work in challenging environments, giving you peace of mind alongside our three year machinery guarantee.

**AXMINSTER**  
**PROfessional**

**AXMINSTER**  
**Engineer**  
**SERIES**

## **Axminster Professional AT325PD Bench Pillar Drill**

**Code: 107705**

- Smooth running 650W induction motor, 12 belt speeds 120-2,580rpm
- Convenient rack and pinion table height adjustment
- Interlocked belt cover and chuck guard; LED work lamp

## **Axminster Professional AT540PD Floor Pillar Drill**

**Code: 107707**

- Heavily built, large floor standing pillar drill with all cast iron construction
- Smooth running 1,100W induction motor, 12 belt speeds 150-2,700rpm
- Extra large table with rack and pinion height adjustment
- Fitted with cast iron feed handle with soft rubber grips, and a quality 3-16mm keyless chuck

## **Axminster Engineer Series TB-16 Bench Pillar Drill**

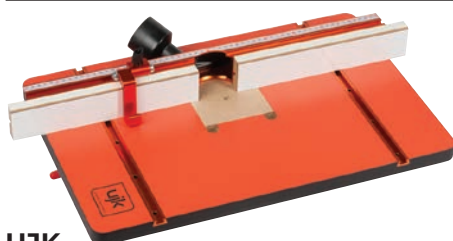

**Code: 505207**

- Heavily built, high precision bench pillar drill for engineers everywhere
- 375W high torque induction motor provides plenty of power
- 9 belt speeds with machined steel pulleys for vibration-free running
- Surface ground table, base and column aids accurate use

## **Axminster Engineer Series SB-16 Floor Pillar Drill**

**Code: 505208**

- Heavily built, high precision floor pillar drill for engineers everywhere
- 375W high torque induction motor provides plenty of power
- Precision machined headstock and spindle quill casting gives accuracy
- 9 belt speeds with machined steel pulleys for vibration-free running

## **UJK Drill Table & Fence**

**Code: 106702**

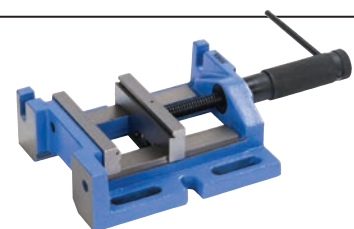

- Increases the work area, better support for large woodworking pieces
- 595 x 395mm in size
- Makes drilling safer and more precise
- Fits all Axminster Professional Pillar Drills
- Full length aluminium fence, adjustable fence plates and repeat stop
- L&R scales and rear dust extraction port
- Reversible to suit a wide range of pillar drills

## **170 Piece High Speed Steel Ground Drill Bit Set**

**Code: 110261**

- Solid ground HSS drill bits, TiN coated for extra durability
- 10 of each 1mm to 8mm, x 0.5mm
- 5 of each 8.5mm to 10mm x 0.5mm
- Strong case keeps them where you can find them

## **3-Way Unigrip Vertical/ Horizontal Drill Vice**

**75mm (80mm Jaw opening) Code: 210339**  
**100mm (88mm Jaw opening) Code: 910201**  
**125mm (120mm Jaw opening) Code: 210340**

- Highly versatile vice made for a pillar drill
- Unigrip Drill Vices will grip most things, both vertically and horizontally
- Triangular grooves for gripping circular items
- Allows the work to be rotated 90° without disturbing it

# SANDERS

Any sander in the classroom needs to be well built, robust and have suitable extraction. The Axminster Professional range offers all of this and more.

Our disc sanders feature electro-mechanical braking, adding fail-safe stopping in the event of a power failure. Paired with a wide range of quality abrasives this range of sanders are ideal for your workshop.

AXMINSTER

PROfessional

## Axminster Professional AP305BDS Disc Sander

Code: 107628

- 305mm disc sander with mechanical brake and quadrant guard
- Large cast iron table with two mitre slots at 90° to each other
- Effective dust extraction via 63mm diameter outlet

## Axminster Professional AP152OVS Bobin Sander

Code: 107635

- Versatile sander combines rotation with oscillation
- Smooth sanding of small or large curves, table tilts up to 45°
- Supplied with 50, 38, 16, 12 and 6mm spindles and 100g loadings

## Axminster Professional AP150BS Belt Sander

Code: 107629

- Sturdy and robust, fabricated from heavy gauge steel plate and cast iron
- Can be used in any position from horizontal to vertical
- Two 62mm dust outlets offer effective dust extraction

AXMINSTER • 3 • THREE YEAR GUARANTEE

**3 YEAR GUARANTEE**  
Available on all Axminster Professional machinery.

## Hermes Abrasive Belts 150 x 1,220mm

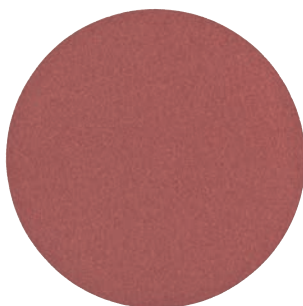

60 Grit (ea) Code: 810260  
100 Grit (ea) Code: 810256  
150 Grit (ea) Code: 810258

- Polyester/cotton cloth backed aluminium oxide abrasive
- High stock removal rates in the coarse grit range
- Consistent surface quality in the fine grit range
- Universal use for dry and wet grinding

## Hermes Self-Adhesive Abrasive Discs

300mm 60 Grit (ea) Code: 810260  
300mm 120 Grit (ea) Code: 810256  
300mm 180 Grit (ea) Code: 810258

- Paper backed, self adhesive discs
- High quality, long life aluminium oxide abrasive

# SEDGWICK MACHINERY

Renowned for their high-quality products, Sedgwick manufactures traditional woodworking machinery ideal for the education sector.

## Sedgwick SM210 Spindle Moulder

230V Code: 108132  
415V Code: 108133

The Sedgwick SM210 Spindle Moulder features a cast iron table with anti-friction planed finish. Mounted on a heavy duty steel cabinet, the table provides maximum timber support and a stable and accurate base for anchoring the spindle, motor housing, and rise & fall mechanism.

- Table size 850 x 650mm
- Robust and reliable cast iron machine
- 4 speeds, 2 extraction outlets, fitted with shaw guard
- Available in 1ph 230V or 3ph 415V

## Sedgwick 571 Floor Standing Morticer Mk2

230V Code: 340073  
415V Code: 340074

The Sedgwick 571 Hollow Chisel Morticer features a cast iron base, column, table, and slideways, which provide a rigid and durable mainframe assembly onto which to mount the cast iron chisel head and motor.

- Front mounted table length stop bar, marking out rail included
- Two-position depth stop for haunching
- Manufactured in the UK

## Sedgwick TE350-3 Single End Tenoner

415V Code: 108794

Stepped tenons, splayed tenons, scribed tenons, double tenons, and multiple bridles are all possible on this versatile machine. Combinations of 90 degree and bevelled cutting discs with appropriate spacers can also be fitted to produce interleaved joints.

- 3-head tenoner with horizontally mounted cutting blocks
- Quick and simple to set up and operate

## Sedgwick TA450 450mm Saw Bench

415V Code: 108139

The Sedgwick TA450 is designed with this in mind, and offers outstanding value for money. Its strength is in its construction, precision engineering, and our insistence on using only the best quality components.

- Solid, reliable saw bench, max depth of cut 155mm
- Cast iron & heavy steel construction, built to last
- Safe and simple operation throughout

## Sedgwick MB Planer Thicknesser with Spiral Cutter Block

230V Code: 105738  
415V Code: 105739

- Heavy-duty; cast iron and steel for professional workshop use
- Spiral cutter block for exceptional clean finish
- Cast iron tables planed for accuracy
- Easily adjusted rigid cast iron fence
- Adjustable "Shaw" guards for rebating
- Separate feed motor, three phase option has 2 speeds
- Braked motor, conveniently located emergency stop switch
- Available in single phase or three phase

# ACCURATE & FLEXIBLE

## UJK Drill Guide

Code: 106072

**Solid, accurate and offers a great deal of flexibility.**

It is practically impossible to drill at an ideal angle, freehanded. This highly engineered drill guide guarantees precise results. The UJK Drill Guide is in effect a hugely versatile and portable drill press. The portability of this guide ensures that you can drill virtually anywhere.

- Capable of drilling any angle between +/- 55°
- Set at 90° for perfectly perpendicular holes
- Takes bits or holesaws up to 60mm diameter
- Suitable for most power drills, mains or cordless
- 1/4" hex drive shaft, with 3-jaw 10mm geared chuck
- Cast aluminium base, machined slide assembly with steel guide rods
- Rubberised, high-friction, non-slip base pad

## Performance meets precision.

UJK is disrupting the joinery market and leading the way in woodworking innovation. Designed, developed and created by Axminster Tools, UJK offers exciting additions that'll liven up any workshop and take your creations to a higher level.

SEE THE  
INNOVATIVE  
UJK RANGE

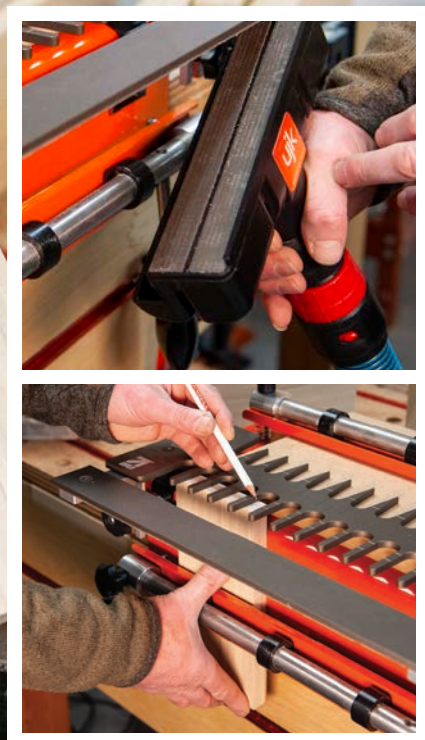

# DOVETAILING MADE QUICK & EASY

## UJK Universal Dovetail Jig

Code: 106843

The UJK Universal Dovetail Jig represents quality, value, safety and superb standards. This jig gives you the possibility of producing six different joints, with unrivalled accuracy, straight out of the box. Simple to use, you'll be creating exceptional joints in seconds.

- Produce 6 different highly accurate joints from day one
- Includes 3 Axcaliber cutters and 2 threaded guide bushes
- Efficient and effective dust extraction outlet

# HAND TOOLS

As lovers of good quality hand tools, we pride ourselves on our vast range where you can be sure that there is the right tool for every job. Affordable without compromising on quality, these are the perfect options for a teaching environment.

## Axcaliber MT1 Mitre Trimmer

Code: 951813

- Trim off fine shavings for the most precise mitres
- Shearing action results in a glass like finish on end grain
- Substantial machined cast iron, razor sharp, tool steel blades

## Axminster Fretsaw

Code: 950971

- Suitable for wood, metal and plastics
- Steel frame, sprung to tension blade
- Large wing screws on blade clamps
- 294mm throat
- Fits 130mm long blade
- Wooden handle

## Axminster Workshop Adjustable Piercing Saws

70mm Throat Code: 200255  
150mm Throat Code: 200256

- For fine and intricate metal cutting
- Wooden handled
- 70 mm or 150 mm throat
- Fits 130mm long blade

## Pegas Coping Saw Blades

Regular (Pkt 6) Code: 502329  
Skip (Pkt 6) Code: 502330

- To fit most coping saw frames 165mm long
- Precision made Swiss blades, 160mm pin to pin (6 blades per pack)
- Suitable for wood, plastics and some non-ferrous metals
- 15tpi regular tooth or fast cutting 18tpi skip tooth

## Axminster Precision Combination Square Set

Code: 105405

- Four piece cast iron set including square, mitre stock, centre finder and protractor
- All round tool for setting out, measuring and marking
- 300mm metric only scales / pearl chrome finish
- Precision machined

## Axminster Workshop Combination Square Metric 150mm

Code: 105399

- Metric 150mm into a bullet
- Adjustable for marking and transferring measurements
- Versatile tool for setting out, measuring & marking
- Cast iron stock with enamel finish

## Axminster Workshop Sliding Bevel 190mm

Code: 106414

- Mark preset angles or transfer angles from one workpiece to another
- Extremely durable and stable, laminated bamboo stock
- Blued steel blade with protective brass inserts
- Brass wing nut locks the blade securely at desired angle

## Rider 151F Spokeshave - Flat Sole

Code: 107347

- Flat sole for convex curves and chamfers
- O1 carbon steel blade hardened and tempered to HRC 63
- Twin adjusting screws for depth and lateral adjustment
- Well-rounded handles with thumb rests for comfort and control
- Ductile cast iron body

## Rider Carpenters Mallets

140 mm (5 1/2") Code: 107011  
110 mm (4 3/8") Code: 107012

- Classic design, straight-grained, selected beechwood
- Angled striking faces ensure each blow is square on target
- Smooth, comfortable handle with rounded edges
- Multiple uses, fitting joints, driving dowels as well chiselling

## Rider 5 Piece Bevel Edge Chisel Set

Code: 104430

- Fine-grained, chrome manganese steel for ultra keen edge
- 6mm, 12mm, 20mm, 25mm and 32mm only require final honing
- Bi-material handles for comfortable and secure grip

## Jack Irwin 3055 Tenon Saws

250mm (10") x 13tpi Code: 211198  
300mm (12") x 13tpi Code: 211405

- Ground and induction hardened teeth; 13tpi blade
- Heavy steel back
- Moulded plastic handle

## Stanley CP3.1/2 Pin Hammer 100g

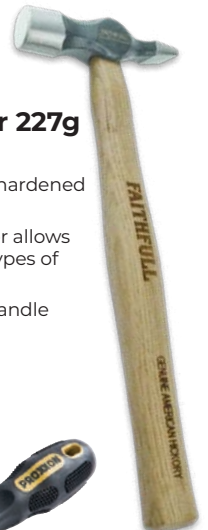

Code: 136338

- Pin hammer cross pein with an Evertite ash handle
- For driving panel pins or small nails
- Head weight: 100g (3 1/2oz)

## Faithfull Joiners Hammer 227g

Code: 118722

- Precision ground and hardened pein and head
- Well balanced hammer allows maximum use for all types of carpenters fixings
- Fitted with a hickory handle

## Axminster Workshop 6 Piece Handy File Set

Code: 100146

- Handy size for smaller tasks
- Second cut files fitted with handles
- File length 100mm, overall length - 170mm

## PROXXON 6 Piece Screwdriver Set

Code: 953084

- Ergonomic design for ease of use, oil and acid resistant handle
- FLEX-DOT technology for comfortable continuous use
- Pozi and slotted screwdrivers, including sizes: 3, 4, 5.5, 6.5mm flat head & Pozi PZ1 and PZ2

# FAITHFULL PLANES

Well known for their great value, Faithfull offers you quality products manufactured to tradesman standards at competitive prices.

**5 YEAR  
GUARANTEE**

## Faithfull 5 piece Carpenter's Tool Kit

Code: 109660

- What every woodworker needs
- Includes: Try Square, Sliding Bevel, Mortice and Marking Gauge, No.4 Smoothing Plane, and No. 60.1/2 Block Plane

## Faithfull 5 Piece Mini Tool Set in Wooden Box

Code: 109661

- Smaller by nature, big on quality
- Perfect for more intricate tasks, requiring precision
- Suited for marking out small parts

## Faithfull No. 4 Smoothing Plane

Code: 109664

- Ideal size for general work
- Most popular and commonly used bench plane
- 250mm long with a 50mm wide blade

Supplied in a wooden box

## Faithfull No. 6 Fore Plane

Code: 109679

- Ideal for flattening large surfaces
- Longer length helps when truing long edges
- 457mm long with a 60mm wide blade

## Faithfull No.6 1/2 Block Plane

Code: 109666

- Incredibly useful block plane
- Low angle blade seating for super clean cuts on end grain
- Micro-adjustable depth of cut

Supplied in a wooden box

## Faithfull No.5 Bench Plane

Code: 109665

- Versatile, used for truing and levelling
- Front and rear hardwood handles for comfort
- Ideal for sizing and initial smoothing

Supplied in a wooden box

## Faithfull No.7 Jointer Plane

Code: 109667

- Perfect when jointing long edges
- Designed for flattening and truing
- Comfortable wooden handle and tote

## Faithfull No. 9 1/2 Block Plane

Code: 109669

- Super general purpose plane
- Supplied in a hinged wooden storage case
- Micro adjustable depth of cut

Supplied in a wooden box

**Faithfull  
No. 4 & No. 60 1/2 Planes in Wooden Box**

Code: 109662

- Contains the two most useful and widely-used planes
- Easy depth and lateral blade adjustment
- Grey cast iron body for strength and stability

**Faithfull  
No. 9 1/2 & 60 1/2 Block Planes  
in Wooden Box**

Code: 109663

- Ideal size for general work
- Most popular and commonly used bench plane
- 250mm long with a 50mm wide blade

**Faithfull  
778 Rebate Plane**

Code: 109668

- Choice of blade positions for normal or stopped rebates
- Cuts rebates up to up to 38mm wide
- Depth stop for consistent rebates

Supplied in a wooden box

**Faithfull  
Shoulder Bullnose  
Rebate Plane**

Code: 109670

- 3 distinct functions, 3 x the value
- Use a shoulder plane, bullnose or chisel plane
- Machined and ground grey cast iron body

Supplied in a wooden box

**FAITHFULL ACCESSORIES**

Tried and test accessories to ensure your plane is working as good as it should be.

**Faithfull  
Handle Kit for No. 4 & 5 Planes**

Code: 109671

- To fit Faithfull No.4 and No.5 planes and similar
- Hardwood front knob and hardwood rear tote
- Includes a toe screw for the tote

**Faithfull  
Spares Pack for No. 4 & 5 Planes**

Code: 109672

- Spares pack for No.4 and No.5 Planes
- Lever cap, brass adjuster nut, threaded bar & cap screw
- Fits 50mm (2") standard Bailey type bench planes

**Faithfull  
Blade for No. 4 & 5 Planes - 50mm**

Code: 109673

- High carbon steel 50mm(2") wide x 2.4mm thick
- Supplied with 25° bevel
- Easy to sharpen and hone using oil or water stones

**Faithfull  
Fence Kit for 778 Rebate Plane**

Code: 109680

- Comprises: fence, 2x fence rods and locking screws
- Rod diameter: 8mm
- Hole centres: 139.5mm

**Faithfull  
Blade for Shoulder & Bullnose Plane**

Code: 109678

- High carbon steel 27mm(1.1/16") wide x 2.4mm thick
- Supplied with 25° bevel
- Easy to sharpen and hone using oil or water stones

# CLASSROOM FAVOURITES

We have gathered a range of our best selling and most popular classroom accessories. From spatulas to tape measures, glues to sandpaper, we've got you covered!

## Rider Sharpening Station Kit

Code: 717767

- Organise sharpening for consistent razor sharp edges every time
- Kit includes double sided diamond stone and strop
- Designed to work with a Rider Honing Guide or similar
- Supplied with board, diamond stone, strop, paste and instructions

## Stanley 99E Retractable Blade Utility Knife

Code: 900217

- Die cast body, shaped to fit hand comfortably
- Blade shifter controls amount of knife exposed
- Spare blades stored in handle, comes with 5 assorted blades

N.B. To buy this product you must be aged 18 years or over. We will verify your age before despatching the order and this might involve us contacting you for proof of age. The product must also be delivered to, or collected by, a person 18 years or over.

## Jewel Blade Heavy Duty Utility Knife Blades

Pkt 10 Code: 286003

Pkt 100 Code: 910331

- Super-sharp, Sheffield made blades
- 10 blade plastic dispenser, or box of 100

## Axminster Workshop Self Healing Cutting Mats

A1 (594 x 841mm) Code: 400290

A2 (420 x 594mm) Code: 400291

A3 (297 x 420mm) Code: 400292

A4 (210 x 297mm) Code: 400293

- Protect work surfaces when cutting almost any material
- Non-slip, self healing multi layer PVC

## Axminster Workshop Junior Hacksaw

Code: 500338

- Improved blade holders
- Chrome finish

## Axminster Workshop Coping Saw

Code: 325001

- Deep frame and narrow blade allows fine curved cutting
- Suitable for a variety of materials
- 14 tpi blades with minimal set

## Crown Try Squares

150mm Code: 400411

300mm Code: 400414

225mm Code: 400413

- Beechwood stock
- Blued spring steel blades
- Brass wear strips
- Made to BS3322

## Axminster Workshop Woodworkers Vice with Table Clamp

Code: 106345

- Made from close grained cast iron, table clamp up to 50mm thick
- Body and sliding jaw have provision for attaching wooden liners

## Axminster Workshop 36 Assorted Disposable Paint Brushes

Code: 600580

- Contains 12 of each size: 25mm, 38mm and 50mm
- Great for applying glue, stains and general workshop use

## Axminster Workshop Multi-Purpose Spreading Spatulas

Pack of 6 Code: 600906

- For applying glue to felts, paper, cardboard etc.
- Tip is flexible and can be used with various amounts of pressure
- Made from polypropylene plastic, dried glue or paint simply peels off

## Axminster Workshop Keyring Tape

2m Code: 104772

- Possibly the handiest tape ever
- Useful wherever normal tapes just too big
- Extends to 2m with impressive 1m stand out

## Stanley Pocket Tape

3m (10ft) Code: 136256

5m (16ft) Code: 135800

8m (26ft) Code: 136254

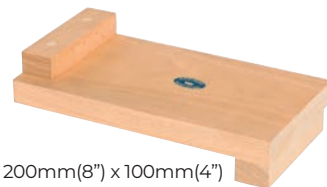

- Corrosion resistant long life nylon coated blade
- Bi-material case for improved grip
- Positive blade lock for accurate measurements

## Crown Bench Hook

Code: 400419

- Solid beechwood, 200mm(8") x 100mm(4")
- Glued and screwed for strength
- Invaluable aid for bench work

## Cork Sanding Block

115 x 65 x 30mm

Code: 400453

- Gives just the right amount of resilience when sanding
- Light and comfortable for prolonged use
- Dimensions 115 x 65 x 30mm

## Crown Small Marking Gauges

Marking Gauge Code: 400415

Mortice Gauge Code: 400417

- Made from solid hardwood with brass fittings
- 150mm(6") long stems
- 50mm(2") square heads

## Axminster Workshop Glue Bottles

Roller Bottle Code: 500214

Biscuit Bottle Code: 500387

Dowel Bottle Code: 500396

Brush Bottle Code: 500397

- Suitable for PVA and aliphatic resin wood and craft glues
- Available in four types to suit different applications

# Shokunin

## Japanese Tools from Axminster Tools

### Shokunin Japanese Flushcut Saw - 125mm

Code: 105019

- Perfect for cutting the protruding dowels or tenons
- Double-edged blade, zero set will not mar the surrounding surface
- Made for both hardwoods and softwoods

### Shokunin Japanese Kataba Crosscut Saw - 240mm

Code: 105013

- Unlimited depth of cut, cuts on pull stroke, practically effortless
- Cuts soft, hardwood, plywood; 3 cutting edges per tooth, fast, clean finish
- Thin blade with minimal set for narrow kerf
- Super hard, stays sharp longer
- Nickel plated for corrosion protection
- Easy to replace blade

### Shokunin Japanese Ryoba Double-Edged Saw - 240mm

Code: 105005

- Double-edged, two saws for the price of one
- Crosscut teeth with 3 cutting edges for clean finish
- Rip teeth cut at amazing speed, with a smooth action
- Cuts on the pull stroke, requires less effort
- Thin, hard blade naturally follows a straight line
- Narrow kerf removes less material

### Spare Blade 240mm

Code: 105006

- Replacement or spare Japanese saw blade
- Fits Shokunin 240mm Ryoba saw
- Double-edged; cross cut and rip cut
- Easy change, single screw fixing

# INTRODUCING SOLDERING IRONS FROM ANTEX

NEW to Axminster Tools. Specific for educational use.

### Antex CS18 Soldering Iron 24V

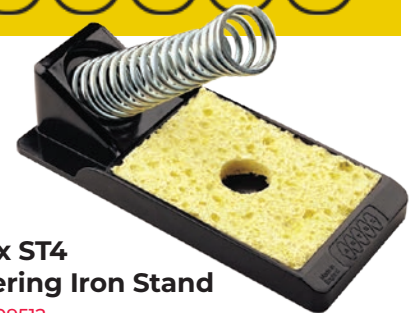

Code: 109515

- Perfect for intricate tasks and precision soldering
- 2.3mm iron plated with a nickel-coated bit for a long life
- Cool touch ergonomic handle for ease of use

### Antex SX25 Soldering Iron 230V

Code: 109517

- Nominal Power - 25 watts
- Supplied with long-life 2.3mm iron plated bit
- Inner ceramic shaft provides near perfect insulation
- A range of alternative sized bits are also available
- CE marked

### Antex ST4 Soldering Iron Stand

Code: 109512

- Good quality and lightweight stand to use with Antex's precision range of soldering irons
- Featuring a strong nickel-plated steel coil holder, to keep your hot iron out of harm's way
- Versatile, can be screwed to the bench or work tray

### Antex ST6A Soldering Iron Stand

Code: 109513

- An industrially styled bench stand for ANTEX M, C, CS, XS, TCS, TC & SD soldering irons
- Manufactured from high grade materials, suitable for use with soldering iron tip temperatures
- Slip-resistant feet, and a ballast weight for stability

### ModelCraft Helping Hands & Glass Magnifier

Code: 106268

- Perfect for up-close, intricate projects
- Leaves both hands free
- Holds work steady for painting, soldering, gluing etc

All Antex irons are available with the option of a burn-proof silicone cable. Ideally suited to educational environments.

# SJÖBERGS BENCHES

For more than 100 years, Sjöbergs has been providing creative solutions for the classroom. A staple, their workbenches offer adaptability and space-saving flexibility.

A genuine Sjöbergs bench comes with a 10-year guarantee and is marked with their official brand on each worktop - a sign that you are buying a workbench that keeps its promises.

## Sjöbergs Elite 2000 Workbench

Code: 701865

- European bench-making at its finest
- Constructed entirely in European beech
- Providing amazing clamping speed, accuracy and smoothness

## Sjöbergs Elite 2000 Workbench & Storage Module SM04

Code: 107840

- 162kg of European beech, the ultimate workbench
- Front and end vices offer enormous clamping potential
- Drawer/cupboard unit provides ample, convenient storage

## Sjöbergs SM04 Storage Module

Code: 701872

- Fits the Sjöbergs Elite 2000 & 2500 cabinetmaker benches
- Optional cabinet for maximum useful storage

## Sjöbergs Clamping Platform

Code: 104156

- Increases the bench's surface area for greater flexibility
- Adds an extra 480mm in length across the full 600mm width
- Range of dog holes; offers almost infinite clamping options

[education@axminstertools.com](mailto:education@axminstertools.com)

## Sjöbergs Junior/Senior Workbench

Code: 504792

- Built to last; choice of two working heights
- Made from high quality Scandinavian timber
- Minimal self assembly

## Sjöbergs Four Sided Workbench

Code: 720850

- Each bench fitted with 110mm capacity vice
- The perfect flexible workstation
- Double rows of bench dog holes for flexible clamping

## Sjöbergs Kvadrat Four Station Workbench

Code: 720851

- Substantial wooden underframe and legs
- Space saving; provides workspace for four students
- Tough, hard wearing selected beechwood

## Sjöbergs QSH Quick Action Holdfast

Code: 701874

- Can be used in any 25mm dog hole
- Position your work in any way you wish
- Robust and excellent quality

## Sjöbergs Accessory Kit for Elite Workbench

Code: 104303

- For use with Sjöbergs Elite workbenches
- QSH Holdfast; rapid adjustment use vertically or horizontally
- Large clamp pad protects your workpiece

## Sjöbergs Steel Bench Dogs for Elite Benches

Code: 107985

- 4 x Unbreakable 25.4mm (1") round steel bench dogs
- Tapered faces hold workpiece securely on the bench top
- Integral spring for easy height adjustment

# CLAMPING DOWN ON WOODWORKING ESSENTIALS!

AXMINSTER

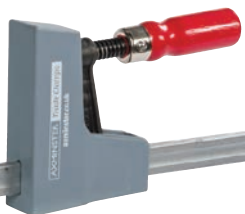

PROfessional

**LIFETIME  
GUARANTEE  
ON CLAMPS**

## Axminster Professional Clamps

We have a wide range of clamps and these are just a few. A vital part of the workshop, these are great quality and well suited to education users. You can never have too many clamps in a workshop!

### Axminster Professional Parallel Jaw Clamps

- 200kg max clamping pressure, jaws remain parallel under pressure
- Polyamide, glue resistant casing surrounds the jaws
- Reversible head so clamp can be used as a spreader

300x80mm Code: 505541  
600x80mm Code: 505542

### Axminster Professional HD Parallel Jaw Clamp Pivot Handle

- Jaws apply even pressure and stay parallel under load
- Unique swivelling handles to apply maximum pressure
- Reversible sliding head so clamp can be used as a spreader

300x95mm Code: 106085  
600x95mm Code: 505543  
1000x95mm Code: 505544  
1500x95mm Code: 505545  
2000x95mm Code: 106086

### Axminster Professional HD G Clamps

100x55mm (4") Code: 505515  
150x70mm (6") Code: 505516  
200x90mm (8") Code: 505517  
250x100mm (10") Code: 505518

- Large clamping capacities and high clamping pressure
- Drop forged, for maximum strength
- Suitable for woodwork, fabrication and engineering

### Axminster Professional Small G Clamps

25mm (pair) Code: 106424  
38mm (pair) Code: 106425  
50mm (pair) Code: 106426

- Strong and well made, suitable for a wide variety of tasks
- Slim cross section allows use where space is limited

### Axminster Professional G Clamp Rack

300x80mm Code: 104700

- Suitable for any size G clamp from 75mm to 250mm, holds 10 G-clamps

### Axminster Professional G Clamp Rack

300x80mm Code: 104700

- Organise unruly long clamps, F clamps, sash clamps, parallel jaw clamps etc

# ADHESIVES

Glues are vital for many projects. Whatever the requirement, we have the adhesive to solve any sticky situation!

## Titebond Original Wood Glue

237ml (8fl.oz) Code: 600203  
437ml (16fl.oz) Code: 600204  
3.8 litres (1 US Gall) Code: 600205  
946ml (31fl.oz) Quart Code: 101768  
8 litres (2.1 US Gall) PROJUG Code: 101756

- Titebond Original recommended for use with biscuit joints
- Ideal for all interior furniture projects
- Aliphatic Resin suitable for wood, leather, cloth
- Strong initial tack, open time 5 minutes
- Assembly time 10-15 minutes
- Shelf life 2 years (kept airtight)

## Titebond II Premium Wood Glue

237ml (8fl.oz) Code: 600207  
437ml (16fl.oz) Code: 600208  
3.8 litres (1 US Gall) Code: 600209  
946ml (31fl.oz) Quart Code: 101769  
8 litres (2.1 US Gall) PROJUG Code: 101757

- Interior & exterior use, strong initial tack with fast setting
- Excellent sandability, unaffected by finishes
- FDA approved for indirect food contact
- First one-part wood glue to pass ANSI Type II water-resistance
- Ideal for radio frequency (RF) and Hot Press gluing systems
- Crosslinking PVA, easy clean up with water
- Conforms to ASTM D-4236

## Titebond III Ultimate Wood Glue

237ml (8fl.oz) Code: 301413  
437ml (16fl.oz) Code: 301414  
3.8 litres (1 US Gall) Code: 301416  
946ml (31fl.oz) Quart Code: 101767  
8 litres (2.1 US Gall) PROJUG Code: 101755

- Superior strength, strong initial tack, longer open assembly time
- Designed for interior and exterior applications
- Waterproof formula that cleans up with water
- FDA approved for indirect food contact
- Conforms to ASTM D-4236

## O3a Aerosol Accelerator for CA Adhesive

200ml Aerosol Code: 109162

- Greatly speeds up the curing time of cyanoacrylate super glue
- Does not stain the surrounding area
- A quick spritz and it's done

N.B. To buy this products you must be aged 18 years or over.

## O3a Cyanocacrylate Adhesive

Thin (50g) Code: 109158  
Medium (50g) Code: 109159  
Black, thick (50g) Code: 109157

- O3a Cyanocacrylate Adhesive put you in full control
- Available in three viscosities; Thin, Medium, Thick
- Sets fast, whilst still allowing time to get the fit "spot-on"

# PPE

- Protects; lungs, eyes, face, and head to level APF40/TH3
- Motor and filter supplies constant clean fresh air
- Clear, mist free, all round vision at all times
- No loss of protection for workers with facial hair
- Suitable for spectacle wearers
- Ergonomic design, well balanced and comfortable
- Highly efficient HEPA filter
- Flip-up visor
- Li-ion batteries give up to 8 hours run time
- Fully adjustable headband

## Ear Defenders

Code: 109330

- Add a third dimension to your protection

## THP3 Filter

Pkt 1 Code: 109354

- Replacement THP3 filter

## Pre Filter

Pkt 10 Code: 109355

- Fits the Trend AIR/PRO MAX powered respirator

## Visor Overlays

Pkt 10 Code: 109328

- Protects against light impact damage to the main visor

## JSP Force™ 8 Reusable Half Mask Complete Medium P3

Code: 104697

- With PressToCheck™ P3 Filters
- Filters allow you to check that you have the correct seal every time
- Comfortable thermoplastic rubber mask for superior fit
- Low resistance valve for fatigue free breathing
- Fully adjustable 4-point cradle suspension ensuring an effective facial fit
- Accepts full range of low profile Force™ 8 filters
- Conforms to EN140 (face piece), EN14387:2004 (filter performance), EN143:200 (filter performance)

## JSP Martcare® Moulded Respirator Valved FFP3

Pkt 10 Code: 101542

- Low breathing resistance valve reduces fatigue
- Comfort even over prolonged use
- Moulds to face shape for excellent seal
- Conforms to EN149

## uvex K2 Ear Defenders

Code: 102134

- Padded headband for optimum comfort
- Extra soft memory foam ear cushions
- Comfortable protection from med noise levels

## uvex Pheos Safety Spectacles

Size: Small Code: 501435

Size: Standard Code: 501435

- Sporty, stylish with excellent fit and coverage
- High scratch resistance with a permanent anti-fog coating
- Metal-free with high impact protection

## uvex Unilite 7710F Multi Purpose Work Gloves

Code: 107873

- Multi-purpose, tough gloves for tough jobs
- Good grip in dry, wet or oily environments
- Contact heat protection up to 100°C

## JSP Respair® X P3V Valved Respirator FFP3

FFP3 (Pkt 10) Code: 107828

- Lightweight, comfortable disposable respirators
- Protects against non toxic and toxic particles - FFP3
- Low profile design is suitable for use with safety spectacles

## uvex Unilite 7700 Nitrile PU Work Gloves

Code: 102145

- Breathable; excellent fit and dexterity for assembly work
- Palm coating high resistance to liquid penetration
- High abrasion protection and tear resistance

## JSP Respair® X P2V Valved Respirator FFP2

FFP2 (Pkt 10) Code: 107827

- Lightweight, comfortable disposable respirators
- Protects against non toxic and toxic particles - FFP2
- Low profile design is suitable for use with safety spectacles

## JSP Eyemax Bi Focal Safety Spectacles

+1.5 Code: 107299

+2 Code: 107300

+2.5 Code: 107301

- Bi-focal safety specs for intricate work
- Impact resistant 2.1mm thick polycarbonate lens,
- Polycarbonate arms with side protection and soft TPR tips for comfort

## uvex Ultra Comfort Safety Goggles

Code: 310226

- Essential protection, comfortable for prolonged wear
- Anti-mist/fog coating for continuous clear vision
- Excellent side protection, even when worn with spectacles

## Trend Air Stealth Pro Respirator Mask FFP3 M/L

Code: 107122

- Low profile design; improves field of vision
- Internally mounted high efficiency pleated filters
- 99.99% filtration of particles and aerosols > 0.3 micron
- Soft moulded body for comfort, easy to adjust for fit
- Approval P3(R) APF20 x WEL
- Conforms to half mask standard BS EN 140
- Respiratory protection to BS EN143 P3R

## Replacement Filters P3

Pkt 5 Code: 107123

- Protects against airborne particles and aerosols
- Filtration 99.99% efficient for particles > 0.3 micron
- Protection for sanding, routing, grinding etc

## Replacement Filters Charcoal

Code: 107124

- Protects against nuisance odours and fumes
- Filtration 99.99% efficient for particles > 0.3 micron
- Protection for spraying, welding, grinding etc.

# SCREWS

When securing your project, using the right screw can determine the quality and longevity of your work; saving you time and money in the long run. With such an extensive range, we have selected some of our most popular screws, available in varying sizes and for a range of projects.

Students can receive

# 10% OFF

purchases for the duration of their course.

To apply for a Student Discount Card simply go to [axminstertools.com/student](https://axminstertools.com/student) and fill out the online form.

# LEASING OPTIONS

Axminster Tools understands its clients and realises it's important to offer a range of options within the education sector when it comes to buying vs leasing. If you are looking for a more flexible option then leasing might be the right choice for you.

*“Leasing is a smart investment solution which creates flexibility and can benefit the company in many ways.”*

## THE BENEFITS OF LEASING

It is often assumed that while leasing allows you to buy the equipment you need right away, it will cost more in the long run. As a business that is not necessarily true. Tax relief means that leasing could actually save you money!

**Read more about the benefits of leasing.**

Here's an example of how leasing can save you money in tax relief, based upon a purchase of £7,500

### Cash Purchase

Total Tax Relief

**£639.30**

Year	Capital Allowance	Tax Relief
1	18% of £7,500 = £1,350	Less 19% = £256.50
2	18% of £6,150 = £1,107	Less 19% = £210.33
3	18% of £5,043 = £907.74	Less 19% = £172.47
Total Tax Relief: £639.30		

tower

### Lease Rental

Total Tax Relief

**£1,752.75**

Year	Capital Allowance	Tax Relief
1	4 rentals of £768.75	Less 19% = £584.25
2	4 rentals of £768.75	Less 19% = £584.25
3	4 rentals of £768.75	Less 19% = £584.25
Total Tax Relief: £1,752.75		

Assumptions: Equipment cost £7,500 Lease Period 3 years  
Frequency: Quarterly Company's Tax Rate: 19%

## FREE TECHNICAL CONSULTATION

We offer a free visit from one of our Technical Consultants to discuss your needs, including installation, extraction solutions and certified training.

Get in contact at:  
[education@axminstertools.com](mailto:education@axminstertools.com)

**Axminster Tools also provides these services, from trusted partners'**

### Product Training

The safety of our customers is of great importance to us, which is why we offer safety training in woodworking. The services include tailored training courses, suited to industrial and educational machines. The team will come directly to you, to ensure a full safety briefing on the machinery that you use on a daily basis.

### Extraction Systems

Axminster Tools works closely with trusted partners, to provide the highest quality extraction systems for education machines. Services include extraction systems for dust, chips, shavings and fumes.

### Servicing and installation

Ensuring that all machinery is working as it should, our specialist partners offer you mechanical solutions that you can rely on. Providing comprehensive knowledge, machinery servicing, installation, maintenance and repair.

For more information about our partner services please email: [education@axminstertools.com](mailto:education@axminstertools.com)

"I've found Axminster Tools' service to be excellent, the team is always helpful and reliable. There's a great range of products and equipment to suit all our needs, working within education, this is great as we're continually doing new things or need different equipment for projects."

**Imperial College, London**

"We first used Axminster Tools in 1988, and as a small family firm, their support and product knowledge were first class. Fast forward to now, and even though they have grown considerably, their values haven't changed. With a genuine interest in their customers, the education of our industry, and responsive attitude, they are a pleasure to work with."

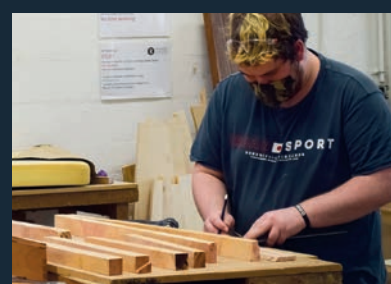

**Williams and Cleal Furniture School**

"Our relationship with Axminster Tools has been a huge benefit to our students. We can confidently recommend good quality tools that will suit the learner's needs."

Axminster Tools has a passion for encouraging learning and supporting the continual development of high skills of craftspeople."

**Bridgwater and Taunton College**

# INTRODUCING THE SHAPER ORIGIN

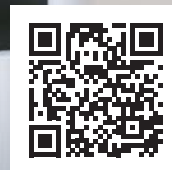

An innovative approach to CNC routing, the Shaper Origin is versatile, easy to use and flawlessly accurate.

Unlike a normal CNC machine, the **Origin** can be brought to your site or workshop and packed away in an easy, portable systainer case. Extremely versatile and able to be used for an array of different tasks, including routing, joinery, flooring, engraving and much more.

A great feature of the **Origin** is the automatic cut correction. If you stray too far from the design line, the **Origin** lifts the cutter and will not let you continue until you reposition.
