

NEWS RELEASE

Axminster Tools Store Update 2024

For over fifty years, Axminster Tools stores have always been a hub for customers to meet inspirational makers, get hands-on with trusted tools, and seek advice from our team of friendly, knowledgeable experts.

In light of the current economic climate, dramatically increased running costs and a shift in general consumer habits, we have taken the decision to close our Newcastle and Warrington stores. We are deeply saddened by the closure of these stores, especially for our store teams whose hard work, dedication, and knowledge have made them a valued part of both the local communities and our Axminster Tools family.

Our commitment to providing exceptional service to our customers, from home woodworkers to professionals, remains unwavering. We continue to offer over 11,000 products online with free delivery, right to the door. Our team of experts is readily available online and over the phone to ensure customers continue to get the most from their Axminster Tools experience.

We have a team on the road focused on helping businesses thrive and we're supported by trusted partners throughout the industry. Retail is where our roots are and we remain committed to our customers and our exceptional teams in our Axminster, Cardiff, High Wycombe, and Sittingbourne stores.

Plus, our vibrant community of like-minded makers is thriving through our free Woodworking Wisdom projects and tutorials online.

The woodworking community is at the heart of our company, and we remain committed to supporting its future, so that we all have a place to share our passion. One of our great pleasures as an organisation is being able to help our customers achieve their goals, big or small. Our goal is to build a sustainable future for Axminster Tools, our staff, our customers, and the communities we support. We hope you will join us in making that a reality.
